POLICY STATEMENT

1. The Basildon Academies will comply with:

1.1 The terms of General Data Protection Regulation (GDPR) and any subsequent relevant legislation, to ensure personal data is treated in a manner that is fair and lawful.

1.2 The eight enforceable principles of good practice contained in the General Data Protection Regulation (GDPR). These state that personal data must be: -

- Fairly and lawfully processed;
- Obtained only for one or more specified and lawful purposes;
- Adequate, relevant & not excessive in relation to the purpose for which it is processed;
- Accurate and kept up to date;
- Not kept for longer than is necessary;
- Processed in accordance with the data subject's rights;
- Secure;
- Not transferred to a country outside the EEC unless that country ensures an adequate level of protection for the rights and freedoms of data subjects in relation to the processing of personal data.

1.3 The guidance displayed on the Information Commissioner's website (<http://ico.org.uk>) and published in "the Guide to Data Protection" published by the Information Commissioner's office and is available at the following web address: <https://ico.org.uk/for-organisations/guide-to-data-protection/>

2. Data Gathering

2.1 Only relevant personal data may be collected and the person from whom it is collected will be informed why the data is being collected, of the data's intended use and any possible disclosures of the information that may be made.

3. Processing

3.1 All processing of personal data will comply with the Data Protection Principles as defined in General Data Protection Regulation (GDPR). In the situation where data is processed by a third party, the third party will be required to act in a manner that ensures compliance with General Data Protection Regulation (GDPR).

3.2 Data will only be processed for the purpose for which it was collected and will not be used for incompatible purposes without the consent of the data subject.

4. Data Storage

- 4.1 The Basildon Academies will hold the minimum amount of personal data necessary to enable it to perform its functions. The data will be erased once the need to hold it has passed. Details relating to relevant deadlines are summarised in Appendix 1.
- 4.2 The Basildon Academies will store personal data in a secure and safe manner.
- 4.3 Electronic data will be protected by standard password and firewall systems operated by The Basildon Academies.
- 4.4 Computer workstations in administrative areas will be positioned so that they are not visible to casual observers.
- 4.5 Manual data will be stored where it is not accessible to anyone who does not have a legitimate reason to view or process that data.
- 4.6 Particular attention will be paid to the need for security of sensitive personal data.

5. Data Checking

- 5.1 The Basildon Academies will issue regular reminders to staff and parents/carers to ensure that personal data held is up-to-date and accurate.
- 5.2 Any errors discovered will be rectified and, if the incorrect information has been disclosed to a third party, any recipients informed of the corrected data.

6. Data Disclosures

- 6.1 Personal data will only be disclosed to organisations or individuals for whom consent has been given to receive the data, or organisations that have a legal right to receive the data without consent being given.
- 6.2 When requests to disclose personal data are received by telephone it is the responsibility of the member of staff taking the call to ensure the caller is entitled to receive the data and that they are who they say they are. It is advisable to call them back, preferably via a switchboard, to ensure the possibility of fraud is minimised.
- 6.3 If a personal request is made for personal data to be disclosed it is again the responsibility of the member of staff to ensure the caller is entitled to receive the data and that they are who they say they are. If the person is not known personally, proof of identity should be requested.
- 6.4 Requests from parents/carers or students for printed lists of the names of students in particular groups, which are frequently sought at Christmas, should be politely refused as permission would be needed from all the data subjects contained in the list. (Note: A suggestion that the child makes a list of names when all the students are present in class will resolve the problem.)

- 6.5 Personal data will not be used in newsletters, websites or other media without the consent of the data subject.
- 6.6 Routine consent issues will be incorporated into The Academy's student data collection sheets, to avoid the need for frequent, similar requests for consent being made by The Basildon Academies.
- 6.7 Personal data will only be disclosed to Police Officers if they are able to supply a relevant document which notifies of a specific, legitimate need to have access to specific personal data.
- 6.8 A record will be kept of any personal data disclosed so that the recipient can be informed if the data is later found to be inaccurate.

7. Confidentiality and Security

- 7.1 Personal data is confidential and confidentiality must be preserved in compliance with the Data Protection Principles as defined in General Data Protection Regulation (GDPR) list.
- 7.2 Paper records will be managed so that access is restricted to those who need to use the information and stored in secure locations to prevent unauthorised access.
- 7.3 Computer systems will be designed and computer files created with adequate security levels to preserve confidentiality. Those who use the school's computer equipment will have access only to the data that is both necessary for the work they are doing and held for carrying out that work.

8. Ownership of Data

- 8.1 The Basildon Academies are responsible for the personal data that it holds. This responsibility extends to any data that is processed by a third party.

9. Training

- 9.1 All staff working with personal data must understand the importance of adhering to the General Data Protection Regulation (GDPR) Principles. Training will be provided to staff annually and as part of the Induction process for new starters.

Why must I do it?

1. To comply with legislation
2. To comply with Data Protection legislation which requires us to make the data subject aware of how we will handle their personal data
3. To ensure that the rights of the Data Subject are protected in any proposed new activity or change to an existing one
4. The law states that we must only process the minimum amount of information needed to carry out our business purpose. It is not acceptable to hold information on the basis that it might possibly be useful in the future without a view of how it will be used. Changes in circumstances or failure to keep the information up to date may mean that information that was originally adequate becomes inadequate.
5. To maintain professional standards and to assist in defending the validity of such comments if the data subject exercises their rights to ask us to amend or delete their personal data if they feel it to be inaccurate.
6. To comply with a principle of Data Protection law
7. To comply with Data Protection law. Where processing does not rely on a legal condition other than consent
8. When using personal data for marketing and promoting services it is unlikely that any lawful condition other than consent would apply.
9. Consent can only be valid for a reasonable period of time.
10. To comply with a principle of Data Protection law.
11. To comply with the right to access personal data
12. To comply with a principle of Data Protection law
13. To comply with the rights of the Data Subject under Data Protection law

14. Personal data must be protected by effective security controls to ensure that only those with approved business need to access the data can do so
15. Personal data must be protected by effective security controls to ensure that only those with approved business need to access the data can do so
16. To comply with the legal requirements to keep personal secure but also to ensure that where there are legal grounds to share information in a managed way that this is done correctly.
17. The law permits organisations to hold such data in order to measure the quality of services being provided, to record consent etc. In certain circumstances recordings may be accessed e.g. to investigate alleged criminal activity or breaches of Organisation policy etc.
18. To comply with a principle in Data Protection law, regulatory guidance and the Data Protection Officer governance requirements.
19. To comply with the Data Subject's rights
20. This is a regulatory requirement
21. Where personal data is used for research purposes, the processing of the data can be legitimised by provisions within Data Protection law

23. To comply with Article 9 of GDPR
24. To comply with Article 9 of GDPR and comply with a principle of Data Protection law requiring that personal data is processed with appropriate security measures

How must I do it?

1. By following the points in this policy
2. By approving and reviewing a compliant privacy notice in line with the Privacy Notice Procedure and making it available to the data subjects
3. By completing and approving a Privacy Impact Assessment, or Data Protection Impact Assessment where the processing is 'high risk' to the rights of the data subjects.
4. By ensuring that the means we use to gather personal data (such as forms etc.) only ask for the information that is required in order to deliver the service.
5. By considering that anything committed to record about an individual may be accessible by that individual in the future or challenged over its accuracy.
6. For example, there should be at least an annual check of the currency of data held about students, parents/carers or staff and whenever contact is re-established with a service user, you should check that the information you hold about them is still correct.
7. By following the points in the Consent Procedure

8. By following the points in the Consent Procedure
9. By following the points in the Consent Procedure. Parents/ Guardians of pupils in the last year of a key stage should expect a communication to ask them to refresh their consents. If they do not respond ahead of a deadline date then consent should be assumed to be no longer valid.
10. By following the points in the Records Management Policy. We must review personal data regularly and delete information which is no longer required; although we must take account of statutory and recommended minimum retention periods. Subject to certain conditions, the law allows us to keep indefinitely personal data processed only for historical, statistical or research purposes. The Retention Schedule will give guidance in these areas.
11. By following the points in the Statutory Requests for Information Policy. We must be aware that data subjects can ask others to make a request on their behalf. There must be evidence of consent provided by the Data Subject to support this.
12. By following the points in the Statutory Requests for Information Policy. Such requests would typically be managed under the Freedom of Information Act (if from a member of the public) or under Data Protection or Justice law if for a criminal investigation, however the decision whether or not to disclose someone's personal data to a third party must satisfy the requirements of Data Protection law
13. By reviewing the impact of any requested change on any statutory duty being fulfilled by the Organisation.
14. By being aware through training and guidance from your manager on what information is appropriate for you to access to do your job. Systems and other data storage must be designed to protect access to personal data. You must inform your manager if you have access to data which you suspect you are not entitled to view.
15. By ensuring appropriate security controls are in place and rules to support those controls are followed. The following should be in place:
 - technical methods, such as encryption, password protection of systems, restricting access to network folders;
 - physical measures, such as locking cabinets, keeping equipment like laptops out of sight, ensuring buildings are physically secure; and
 - organisational measures, such as:
 - Providing appropriate induction and training so that staff know what is expected of them
 - Taking reasonable steps to ensure the reliability of staff that access personal data, for example, by the use of Disclosure and Barring Service (DBS) checks.
 - Making sure that passwords are kept secure, forced to be changed after an agreed period and are never shared
16. Consult your manager, any procedure guidance or any library of sharing agreements managed by the Organisation. Consult the Data Protection Officer or SIRO in one-off cases of sharing.

17. By ensuring that employees and members of the public are fully aware of what personal data is being recorded about them and why, and in what circumstances that data may be used. Operation of overt surveillance equipment such as CCTV must always be done in line with relevant codes of practice captured in the Surveillance Management Procedure. Any covert surveillance must be done in line with the provisions in the Investigatory Powers Act (2016)
18. By completing compulsory training courses relevant to your role. Records will be kept of induction training and annual refresher training. Training content for each role will be determined by feedback on current training methods and the outcome of investigating data breaches. This will be reviewed frequently.
19. By ensuring an Impact Assessment has been approved for the activity
20. The payment must be made annually to the Information Commissioner's Office (ICO)
21. Follow the guidance in the Data Minimisation Procedure
22. Consult the Data Protection Officer over any proposed sharing outside of the UK. If you are a manager who is proposing a change to or implementing a new system which may involve the hosting of personal data in a nation outside the UK, this must be first assessed by a Privacy Impact Assessment, which must be approved by your SIRO and Data Protection Officer
23. Special Categories of Personal Data are information revealing *racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, and genetic data, biometric data* for the purpose of uniquely identifying an individual, *data concerning health or data concerning an individual's sex life or sexual orientation*. Where this data is held it should be stored securely and in a way that access is restricted only to those internal staff that have a valid need to access it. It should only be shared externally after verifying that the recipient is entitled to access this data and through secure means.
24. Hard-copy packages must be marked as such by writing on the exterior of the package. Emails should contain the wording in the 'subject' field before the email title. Refer to the Records of Processing Activity document and the register of Data Flows for clear instruction on how you are expected to handle sending the data securely according to the particular activity you are undertaking

What if I need to do something against this policy?

If you believe you have a valid business reason for an exception to these policy points, having read and understood the reasons why they are in place, please raise a formal request by contacting the school office.
